

No More Texas Uniform Hazardous Waste Manifest Starting September 5, 2006

The U.S. Environmental Protection Agency (EPA) has announced changes to the uniform hazardous waste manifest form and its continuation sheet. If you use the manifest, please note these important changes:

- **Only the new Federal Uniform Hazardous Waste Manifest can be used starting 9/5/2006.**
 - Everyone in the nation will be using the new federal manifest.
 - Until 9/5/2006, you should use the Texas Uniform Hazardous Waste Manifest.
 - If your waste is in transit at midnight on 9/4/2006, the Texas Manifest will still be valid when it reaches its destination.

- **Copies of the new manifest can be obtained through EPA registered printers.**
 - EPA will not distribute manifests.
 - Texas will only distribute to Conditionally Exempt Small Quantity Generators (CESQGs) and Small Quantity Generators (SQGs), but only up to 50 copies per site per year. After that, the generator will need to contact an EPA registered printer.
 - Large Quantity Generators, Transporters, TSDFs, Consulting Firms, Remediation Firms, etc., should contact EPA for a list of approved manifest providers or register with the EPA to print their own manifests.

- **Find EPA registered printers at the following website.**
www.epa.gov/epaoswer/hazwaste/gener/manifest/registry/printers.htm

- **Texas Waste Codes will still be entered on the form.**
 - Use two of the 6 waste code blocks in Item 13 for the Texas Waste Code, regardless of whether the waste is hazardous or industrial Class 1.

- **If you are shipping only non-hazardous waste, enter the 5-digit Texas Registration numbers instead of the EPA ID numbers for generator, transporter and receiver.**

- **Instructions for completing the new manifest can be found in Title 40 Code of Federal Regulations, Part 262, Appendix, at the following website.**
www.epa.gov/epaoswer/hazwaste/gener/manifest/registry/man-inst.pdf
